

## **REACH Declaration**

### **FROST Denmark A/S**

#### **1. General description of REACH**

REACH (Regulation (EC) No. 1907/2006) is the European Union regulation concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals. The objective of REACH is to ensure a high level of protection of human health and the environment, while enhancing the competitiveness and innovation of the EU chemicals industry. REACH places the primary responsibility for chemical safety on manufacturers and importers of substances and mixtures placed on the EU market.

#### **2. Role of FROST Denmark A/S under REACH**

FROST Denmark A/S does not manufacture chemicals or chemical mixtures and does not import chemicals or mixtures into the European Union. Consequently, FROST Denmark A/S has no registration obligations under REACH.

FROST Denmark A/S is affected by REACH solely in its role as a downstream user, using chemicals and mixtures supplied by manufacturers and importers who hold the relevant REACH registrations.

#### **3. Compliance approach and supplier engagement**

In its role as a downstream user, FROST Denmark A/S depends on the compliance activities of its suppliers to ensure the continued, lawful supply of chemicals and mixtures in accordance with REACH.

To ensure compliance, FROST Denmark A/S maintains close and ongoing contact with its suppliers. This includes, but is not limited to:

- Mandatory acceptance and signing of FROST Denmark A/S' Code of Conduct, which includes environmental and chemical compliance requirements
- Regular requests for information and written confirmations from suppliers regarding compliance with applicable REACH obligations

Through these measures, FROST Denmark A/S actively ensures that chemicals and mixtures used in its operations are supplied in compliance with REACH and related chemical legislation.

#### **4. Statement of responsibility**

Based on the above, FROST Denmark A/S confirms that it fulfills its responsibilities as a downstream user under REACH and relies on its compliant supplier network to secure a safe and lawful supply of chemicals and mixtures.
