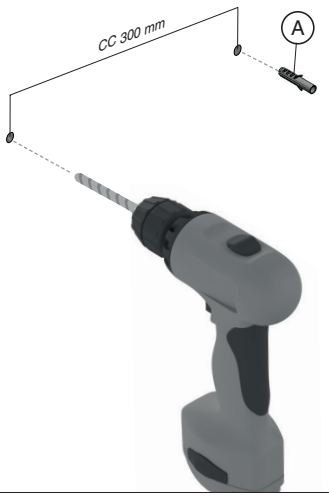
BRUSHED STAINLESS	POLISHED STAINLESS	BRUSHED COPPER	POLISHED COPPER	BRUSHED GOLD	POLISHED GOLD	BRUSHED BLACK	MATT BLACK	MATT WHITE

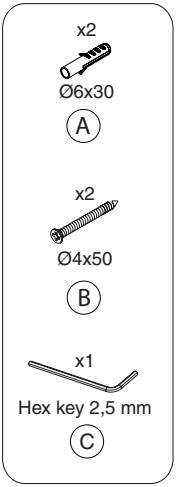
MOUNTING

1 Before installation, the installer must ensure that the wall's material and strength are sufficient, such as a solid or reinforced wall.

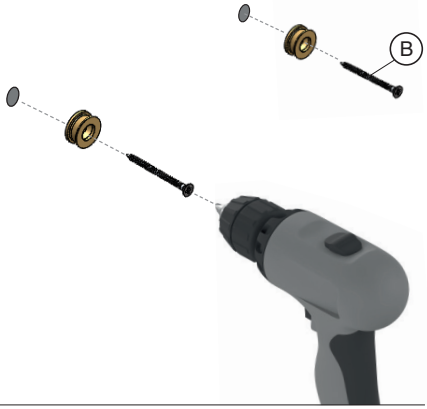
Place the Bath Grip in the desired position and mark the screw holes as illustrated, with a CC distance of 300 mm.

Drill the marked holes using a 6 mm drill bit and insert the enclosed Ø6x30 mm wall plugs (A).



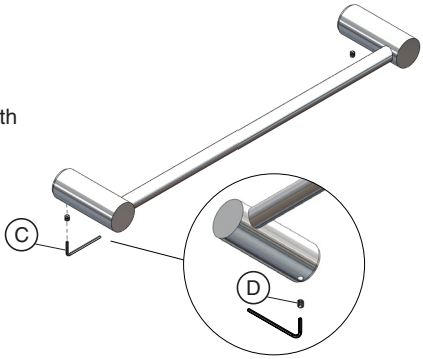


2 Secure the inserts on to the wall with the enclosed Ø4x50 mm screws (B) and use a Phillips screwdriver with bit PH2 to tighten the screws.



3 Press the Bath Grip on to the two inserts.

Securely tighten the set screws (D) underneath the Bath Grip with the hex key (C).



CLEANING AND MAINTENANCE

Surfaces should be cleaned with a microfiber cloth, glass cleaner or other non abrasive and gentle agents.

ATTENTION:

Never use solvents or aggressive household cleaners like bleach, acids (e.g. descalers) or ammonia-based bathroom cleaner to clean the product. Steel wool and hard brushes can permanently damage the surface of the steel.

EXCLUSION OF LIABILITY

FROST accepts no liability whatsoever for damage to persons or property that occurs or has occurred as a result of improper installation or maintenance, particularly if the safety instructions and other points to note listed are not or have not been observed in full.

WARNING AND HAZARD NOTICES

Improper mounting or use can lead to accidents and serious injuries.
