RADA is a shoe rack with a minimalistic design in polished stainless steel and powder coated steel. The unique design of RADA gives the option to place the shoes in two different ways, where by it is suitable for high heels as well as trainers and boots. The discreet wall plate with concealed mounting also serves as protection for the wall besides giving a strong and cleaning friendly fixing to the wall.

Material: Stainless steel, polished + steel, powder coated.

Design: busk+hertzog

Dimensions:

W5001

Height: 120 mm
Width: 600 mm
Projection: 164 mm
Weight: 3 kg

W5002

Height: 120 mm
Width: 1000 mm
Projection: 164 mm
Weight: 5 kg

Mounting instructions:

Hold the mounting plate in horizontal position against the wall and mark the pre-drilled holes with a pencil. After drilling, insert the supplied dowels and fix the plate with screws. Next, hang up the shoe rack by pushing it sideways into the centre of the mounting plate. If necessary, use a rubber hammer to tamp it carefully into the correct position.
