BRUSHED STAINLESS	BRUSHED COPPER	BRUSHED GOLD	BRUSHED BLACK	MATT BLACK	MATT WHITE

ASSEMBLING OF TABLE BASE 8011

1 To assemble the Table Base 8011, start by mounting the Y-shaped bar (A) onto the foot plate (B) using the four enclosed M10x25 screws (C). Do not fully tighten the screws yet, so the bars can be adjusted when mounting the top plate.

2 Place the top plate (D) onto the Y-shaped bar and secure it using the four enclosed M8x10 screws (E). Finally, tighten the screws on the foot plate to ensure that the Table Base is fully secured.

MOUNTING OF TABLETOP

3 If a FROST tabletop is not used, the tabletop and mounting screws are not included.

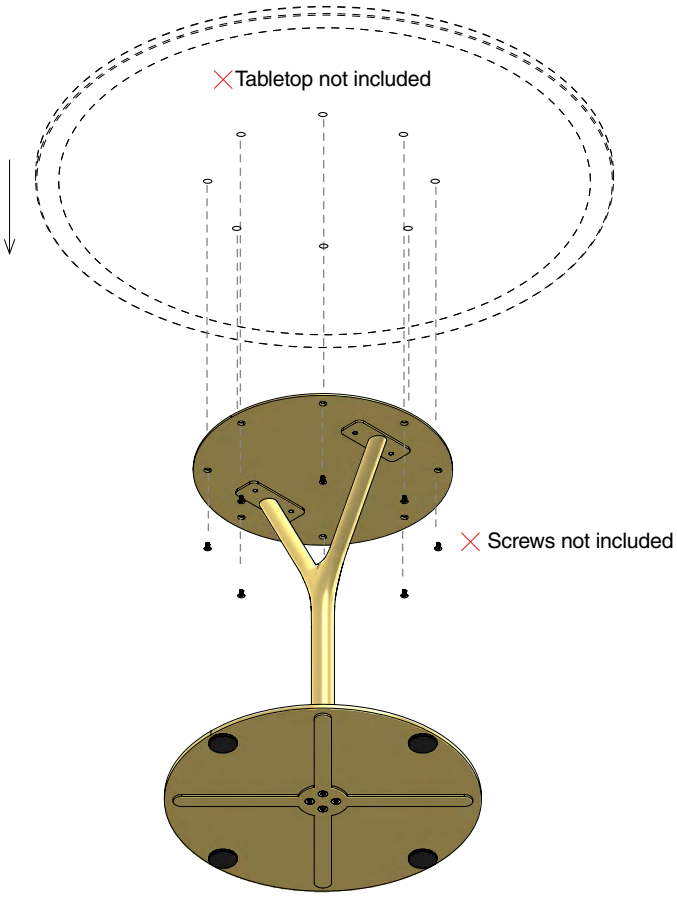

The table base is designed for countersunk M6 screws. Screw length and type depend on the tabletop material and thickness. Please consult the tabletop manufacturer of the chosen tabletop for correct mounting.

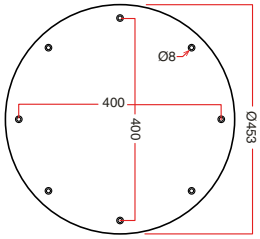

3D FILES AVAILABLE ON REQUEST

FROST offers 3DS and 3DWG files of the table base.

DXF FILES FOR MILLING

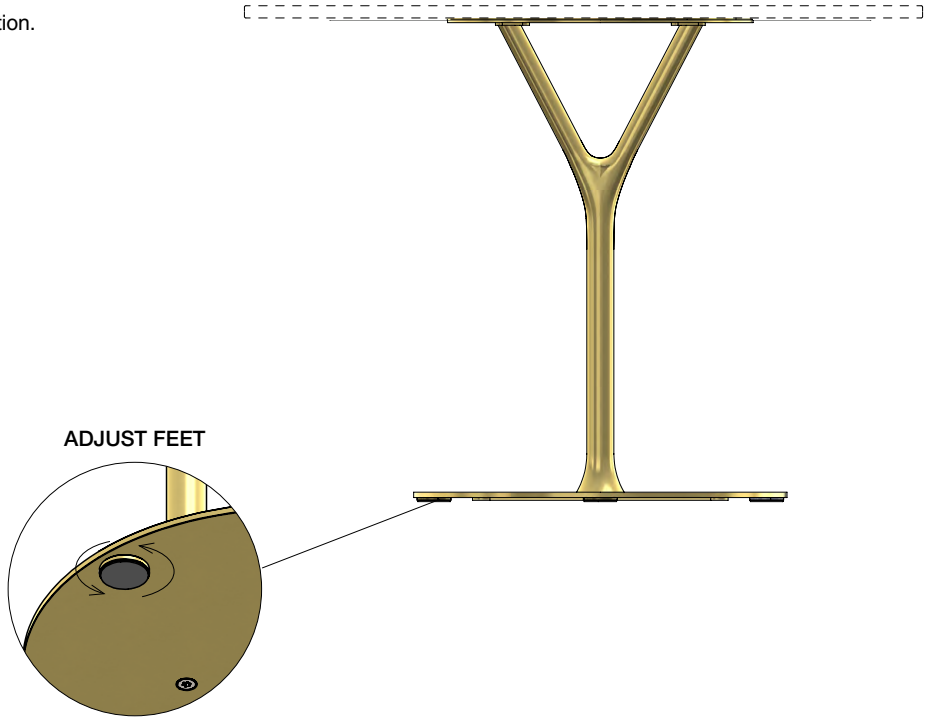

DXF files are available for milling the recess for the mounting plate and positioning the screw holes.
We recommend a 3 mm tolerance around the mounting plate when recessed into the tabletop.

4 Once the table is fully assembled, adjust the feet if needed to ensure a level and stable position.

CLEANING AND MAINTENANCE

Surfaces should be cleaned with a microfiber cloth, glass cleaner or other non abrasive and gentle agents.

ATTENTION:

Never use solvents or aggressive household cleaners like bleach, acids (e.g. descalers) or ammonia-based bathroom cleaner to clean the product. Steel wool and hard brushes can permanently damage the surface of the steel.

EXCLUSION OF LIABILITY

FROST accepts no liability whatsoever for damage to persons or property that occurs or has occurred as a result of improper installation or maintenance, particularly if the safety instructions and other points to note listed are not or have not been observed in full.

WARNING AND HAZARD NOTICES

Improper mounting or use can lead to accidents and serious injuries.
